

The Norfolk County Mosquito Control Project has suspended ULV Applications for 2011 as of Thursday, September 15, 2011 due to the cooler nighttime temperatures.

If virus activity is indentified in the County (West Nile Virus or Eastern Equine Encephalitis), the Project may consider additional applications if conditions warrant.

Please check our website (<http://massnrc.org/ncmcp>) for regular updates.

Otherwise, ULV Applications will resume around Memorial Day, 2012.
